Can you show me only skincare brands that are not from China or the U.S.? I'm focusing on European options.

Based on the information provided and your preferences (excluding China and the U.S., focusing on Europe), here are some skincare brands aligned with your criteria:

1. **Eucerin** - A German dermatological skincare brand, part of Beiersdorf AG.
2. **Sesderma** - A Spanish dermocosmetic brand known for its medical-dermatological heritage and nanotechnology specialization.
3. **Sisley** - A French luxury skincare brand with a focus on natural ingredients and advanced skincare technologies.

These brands are based in Europe and meet your criteria of not being from China or the U.S. Let me know if you'd like more details about any of these!

Does Sesderma also follow EU fragrance allergen disclosure rules?

Based on the information available and the reasoning provided:

Answer:
While Sesderma is a European skincare brand and thus likely subject to EU regulations, there is no specific information indicating whether they follow the EU fragrance allergen disclosure rules. To confirm compliance, it is recommended to check product labels or contact Sesderma directly for clarification.
