I need something safe for both me and my teenage daughter. Any brand from North America that makes gentle products for all ages?

Based on your preferences and the available information, here are some recommendations:

1. **Estée Lauder**
   - Product: *Advanced Night Repair Cleansing Balm*
   - This product is silicone-free, sulphate-free, vegan, and free from alcohol, mineral oils, and gluten. It is designed to be gentle and suitable for all skin types, making it a good option for both you and your teenage daughter. Estée Lauder does not test on animals where required.
2. **NeoStrata**
   - Product: *Resurface Foaming Glycolic Wash*
   - This product contains 18% glycolic acid and is formulated to be gentle, even for sensitive skin. It is soap-free and designed to improve skin texture without irritation. However, it's important to note that the animal-testing status for NeoStrata was not explicitly mentioned in the provided information.

Both brands are based in North America, and their products are designed with gentle formulations suitable for all ages. Estée Lauder's product stands out as being vegan and free from harsh ingredients, which aligns well with your request for safety and suitability for both you and your teenage daughter.

Does NeoStrata's Resurface Foaming Glycolic Wash contain any sulfates or parabens?

Based on the information provided about NeoStrata's *Resurface Foaming Glycolic Wash*, there is no mention of sulfates or parabens in its ingredient list. The product description emphasizes its gentle formulation with active ingredients like glycolic acid and lactobionic acid, but it does not specify the use of sulfates or parabens. Therefore, based on the details available, I can confirm that sulfates are **not mentioned** in the formula, and parabens are also **not listed** as ingredients.

If you're looking for a product that avoids these specific ingredients, this product aligns with that preference!
